

COMPANY PROFILE

AGUA NEXUS

Engineering precision. Delivered on the ground.

WHO WE ARE

About Agua Nexus

Agua Nexus Facility Management is an integrated facilities management and MEP engineering company delivering electromechanical solutions across residential, commercial, and industrial developments. We bring together skilled engineers, disciplined project management, and hands-on execution to take projects from design intent through installation, testing, commissioning and long-term support.

Our approach is simple: understand the client's requirement in full, engineer a system that performs, and deliver it with quality and accountability at every stage. From electrical and mechanical works to plumbing, low-current systems, water infrastructure and facility management, Agua Nexus operates as a single, reliable point of engineering responsibility.

Integrated MEP

Safety First

Quality Driven

Vision & Mission

VISION

To be a trusted engineering partner recognized for precision, reliability and integrity in every mechanical and electromechanical system we design and deliver — understanding each client's requirement so completely that we can offer a genuinely comprehensive solution.

MISSION

- Deliver outstanding engineering services, treating every client relationship the way we ourselves would want to be treated.
- Pursue sound business growth — but never at the cost of quality, safety, or reputation.
- Build every client relationship on a foundation of fairness, transparency and trust.

ELECTRICAL WORKS

MECHANICAL WORKS

PLUMBING WORKS

EXTRA LOW VOLTAGE (ELV) WORKS

WATER AND WASTEWATER SECTOR

BUILDING FACILITY MANAGEMENT

Electrical Works

Our Electrical Division provides comprehensive electrical engineering solutions for residential, commercial, industrial, and infrastructure projects. We specialize in the design, installation, testing, commissioning, operation, and maintenance of complete electrical systems in compliance with international standards and local authority regulations.

- ✔ Power Distribution Systems, Switchgear & Distribution Boards
- ✔ Power & Control Cable Laying, Glanding and Termination
- ✔ Electrical Panels, MCC, PCC & Control Panels
- ✔ Earthing, Lightning Protection & Bonding Systems
- ✔ Industrial Electrical Wiring & Cable Tray Installation
- ✔ Generator, UPS & Power Backup Systems
- ✔ Testing, Commissioning & Electrical System Verification

Mechanical Works

Our Mechanical Division delivers comprehensive mechanical engineering solutions for commercial, industrial, and infrastructure projects. From equipment installation and piping fabrication to hydrostatic testing, flushing, testing, and commissioning, we provide complete turnkey mechanical solutions.

- ✓ Pump Installation (Booster, Transfer, Fire Fighting & Sewage)
- ✓ Air Ducting Installation and Air balancing
- ✓ Mechanical Equipment Installation, Testing & Commissioning
- ✓ HDPE, GRP, DI, GI, UPVC, PPR & Carbon Steel Pipeline Works
- ✓ HVAC and Air Conditioning Systems

Plumbing Works

Our Plumbing Division delivers complete plumbing engineering solutions for residential, commercial, industrial, and infrastructure projects. We specialize in the design, installation, testing, commissioning, and maintenance of potable water, drainage, sewerage, and stormwater systems in compliance with international standards and local authority regulations

-
- ✓ Water Storage Tanks, Booster Pumps & Pressure Management Systems
 - ✓ Hydrostatic Testing, Flushing, Disinfection & Leak Testing
 - ✓ Plumbing Fixtures, Sanitary Ware & Accessories Installation
 - ✓ Domestic Water Supply & Distribution Systems
 - ✓ HDPE, PPR, uPVC, CPVC, GI, Copper & Stainless Steel Piping Installation
 - ✓ Underground Utility Networks & External Infrastructure Works

Extra Low Voltage (ELV)

Our ELV Division delivers intelligent building solutions that enhance security, communication, automation, and operational efficiency. We design, install, test, commission, and maintain integrated low-voltage systems for residential, commercial, industrial, and infrastructure projects.

- ✓ Structured Cabling Systems (Copper & Fiber Optic Networks)
- ✓ CCTV Surveillance & Video Management Systems (VMS)
- ✓ Access Control & Biometric Attendance Systems
- ✓ Building Management System (BMS) & Smart Building Integration
- ✓ Home Automation & Smart Building Solutions
- ✓ PLC, Automation & SCADA Systems Programming & Interfacing

Water & Wastewater

Our Water & Wastewater Division provides complete engineering, procurement, installation, testing, commissioning, and maintenance services for municipal, industrial, and commercial water treatment facilities.

- ✓ Seawater Reverse Osmosis (SWRO) & Brackish Water Reverse Osmosis (BWRO) Plants
- ✓ Water Treatment Plants (WTP) & Wastewater Treatment Plants (WWTP)
- ✓ Sewage Treatment Plants (STP) & Effluent Treatment Plants (ETP)
- ✓ Ultrafiltration (UF), Multimedia Filtration & Activated Carbon Filtration Systems
- ✓ Membrane Bioreactor (MBR), Moving Bed Biofilm Reactor (MBBR) & Conventional Biological Treatment Systems
- ✓ Plant Upgrading, Rehabilitation & Process Optimization

Facility Management

Our Facility Management Division provides integrated hard and soft FM services to ensure the safe, efficient, and uninterrupted operation of residential, commercial, industrial, and institutional facilities. We deliver comprehensive maintenance solutions through preventive, corrective, and predictive maintenance programs, maximizing asset performance while reducing operational costs.

- ✓ Preventive, Corrective & Emergency Maintenance
- ✓ Building Automation System (BMS) Monitoring & Maintenance
- ✓ Water Treatment Plant (WTP), STP & Pump Room Operation and Maintenance
- ✓ Generator, UPS & Power Backup System Maintenance
- ✓ Civil Maintenance, Carpentry, Painting & Masonry Works
- ✓ Landscaping, Irrigation & External Area Maintenance
- ✓ Asset Management, Helpdesk Services & Annual Maintenance Contracts

Our QHSE Commitment

Agua Nexus is committed to best practice across every project, working in line with recognized international quality, health, safety and environmental management standards. We stimulate continuous improvement through employee participation at every level, protecting our people, our clients, and the environments we work in.

Quality Management

Consistent, documented processes aligned with ISO principles.

Health & Safety

Site safety culture aligned with ISO principles.

Environment

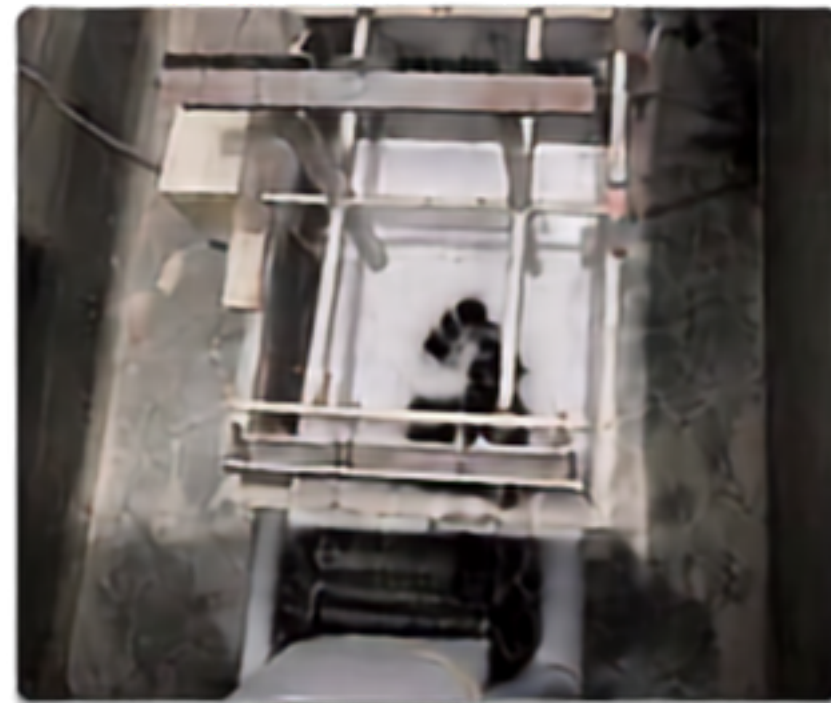

Responsible resource use aligned with ISO principles.

Featured Projects

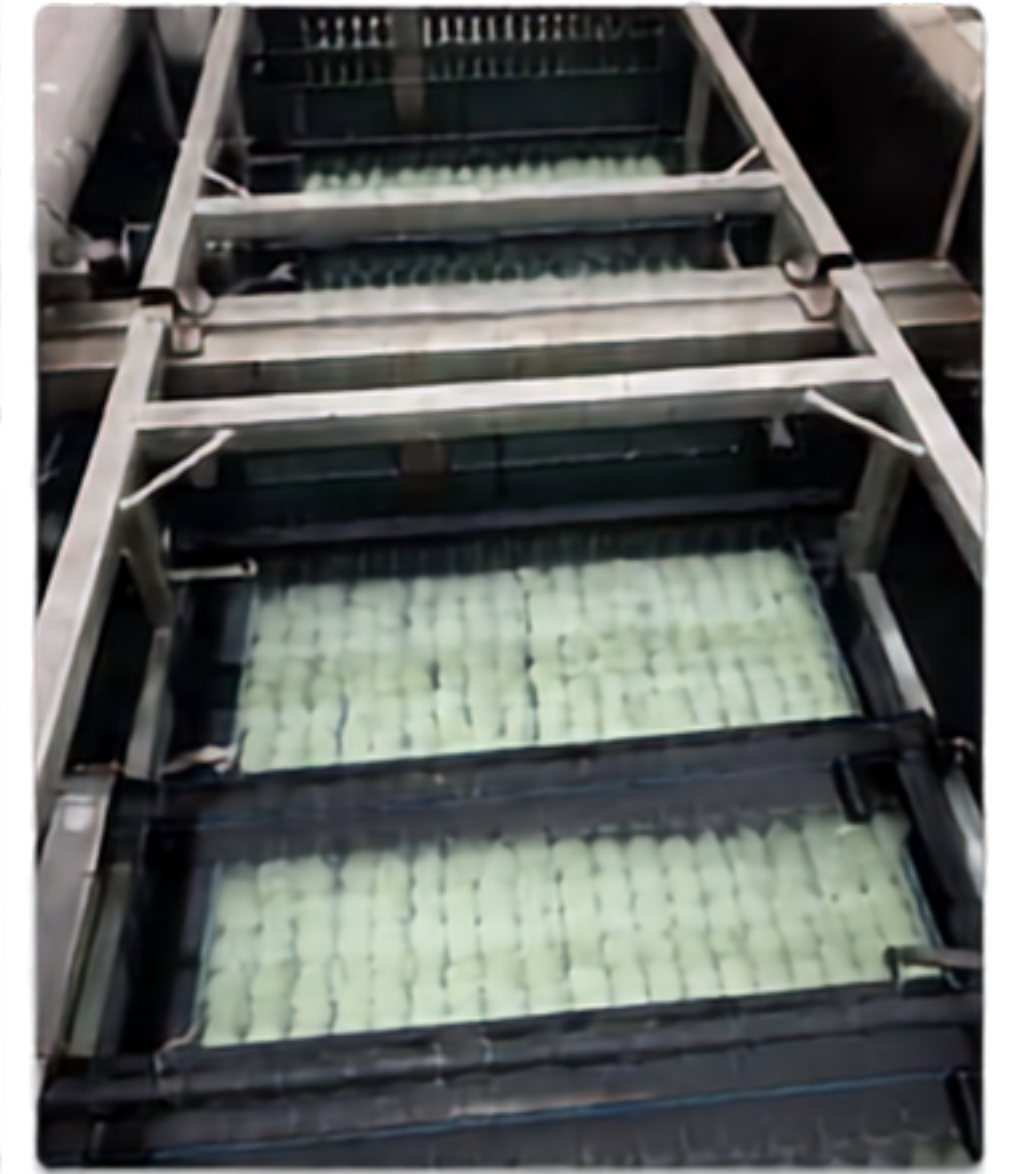

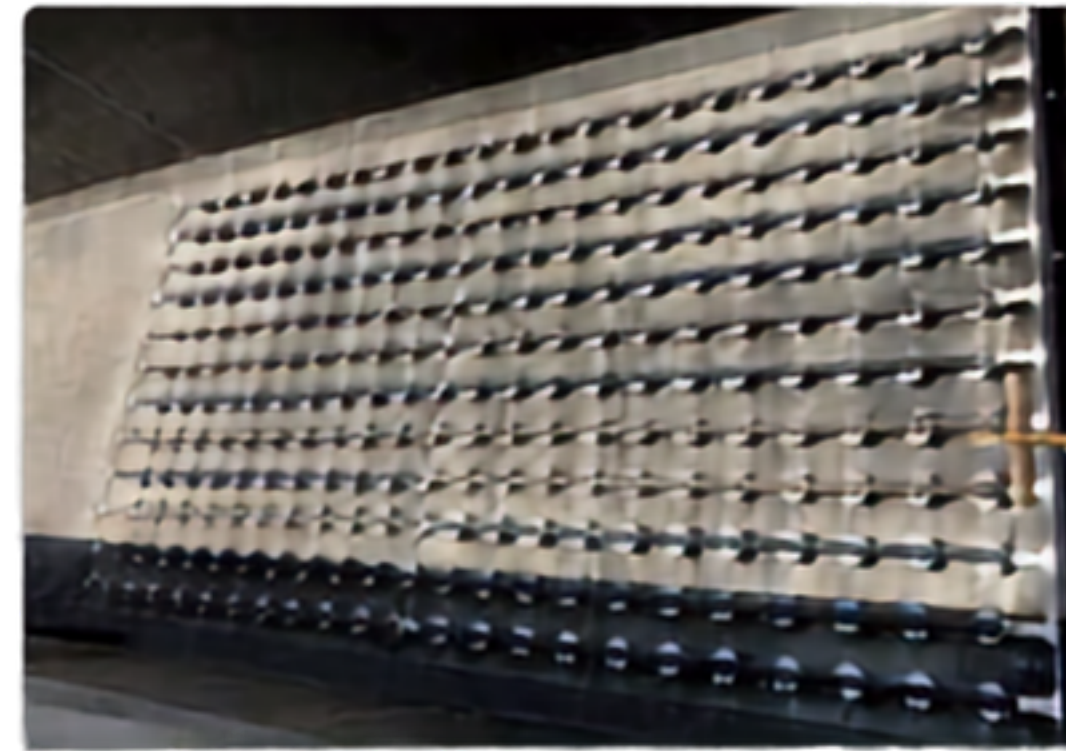

Inlet Screening for Wastewater Treatment Plant 7200 M3/Day

Engineered inlet screening system designed for high-capacity wastewater intake and debris removal.

10,000 M3/Day HF MBR Wastewater Treatment Plant

Hollow Fiber Membrane bioreactor (MBR) for textile Wastewater Treatment

Featured Projects

Water Pumping System

Integrated electromechanical pump installation ensuring reliable, efficient fluid transfer.

2,800 M3/Day MBR with Recycling System

Compact MBR system with integrated recycling for efficient water reuse at mid-scale capacity.

Featured Projects

1 MGD Sea Water Intake System

Automated seawater intake and pumping system engineered for high-volume desalination feed supply.

Reverse Osmosis System

High-capacity reverse osmosis system delivering efficient, reliable water purification and desalination.
